Integro's Electric Vehicle Break Away Cable Assembly

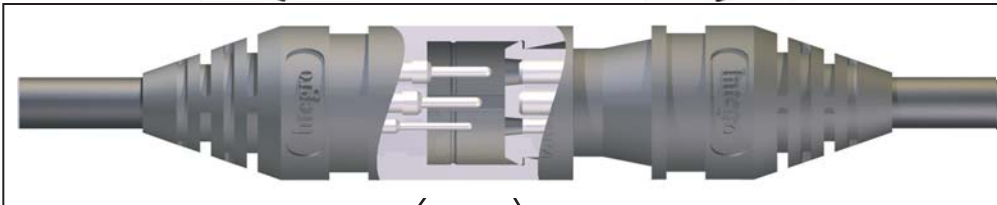

"With the patented ridge system"

The only system that *breaks away, shuts down safely* and *can be reset* by the operator!

- Fully Engaged
- Fully Operational
- Vehicle is Charging

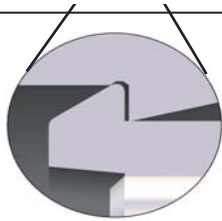

← Pull Incident Occurs →

- Connectors Disengage
- Charging Safely Shuts Down
- Ridge System Keeps Connectors in Place

- Ridge system keeps connectors in place even when connectors unplug and system shuts down

100% Theft Proof

100% Tamper Proof

- Operator can Reset and Resume Charging

Don't let your charging station go down after a pull incident!
Use *The Tutor* and be sure to keep your charging station on line!

- UL2251 Approved
- Patent Filed 61/416-464

Integro

Yes, we have it.
